

**MEDIA ADVISORY**  
**September 7, 2005**

**Cybernet Medical to Demonstrate Remote Monitoring Industry's Lowest-Cost  
Telemedicine Solution at the American Telemedicine Association's 2005 Fall Forum**

*Award-winning telemedicine system available for as little as \$42 per patient per month*

**WHO:** Cybernet Medical, a leading developer of biometric monitoring technology and medical devices for outpatient care.

**WHAT:** Cybernet Medical will showcase its MedStar™ Disease Management Data Collection System throughout the American Telemedicine Association's annual Fall Forum, September 11-13, 2005. Cybernet Medical has committed to being the lowest cost supplier of remote monitoring devices in the industry, in order to make telemedicine solutions practical for the financially squeezed patients who can most benefit from them.

The MedStar interface device and accompanying web-based electronic patient record comprise the complete MedStar System, which is designed to improve in-home patient chronic disease management while reducing the expense of providing it. Specifically designed for home care, hospital and disease management situations, the battery-powered and portable MedStar device is a complete low-cost solution for moving physiological data acquired in the patient's home to remotely located caregivers. Using MedStar devices paired with Cybernet Medical's web-based electronic patient physiological data record management systems, care providers can deliver better care at lower cost.

**WHEN:** ATA 2005 Fall Forum, September 11-13, 2005

**WHERE:** ATA 2005 Fall Forum - Telemedicine Technology Center  
Booth #4  
Desert Springs Resort & Spa, Palm Springs, CA

**About Cybernet Medical**

Cybernet Medical is focused on using the Internet to improve the way chronic care patients are monitored and diagnosed. Through research funded by the U.S. Government, Cybernet Medical developed and patented medical devices and web-based electronic patient record systems that remotely collect data and provide the means for more efficiently managing chronically ill patients. Cybernet Medical is a division of Cybernet Systems, a research and development firm based in Ann Arbor, Michigan. For more information on Cybernet Medical, visit the company's web site at [www.cybernetmedical.com](http://www.cybernetmedical.com) or call 734-668-2567.
